PSAU ACTIVIIES APPLICATION

WELCOME TO BE INFORMED OF ALL THE UNIVERSITY EVENTS AND ACTIVITIES!

DESCRIPTION

It is a project to design application for the Prince Sattam University that aims to reviews the most important information about the activities in the university, and allows you to communicate easily and quickly to see the latest news and events held at the university, with the possibility of immediate access to the latest news if the notification service is activated. It also allows all university employees, students, employees and faculty members, to access the portal, and view all events, activities and news related to the university.

APPLICATION FEATURS

NEWS AND EVENTS

The app provides a platform to review important information about university activities, including news and events.

COMMUNICATION

Users can easily and quickly communicate through the app, facilitating interaction and engagement within the university community.

NOTIFICATIONS

With notification services activated, users receive immediate access to the latest news and updates, ensuring they stay informed in real-time.

APPLICATION FUNCTIONS

01 USER INTERFACE DESIGN

**02** SETUP DATABASE
03 USER AUTHENTICATION

04 NOTIFICATIONS

**05** INTEGRATION WITH EXTERNAL SYSTEMS:

**06** CONTENT MANAGEMENT SYSTEM (CMS)

SCREEN 1:

On the homescreen we will display a button (ElevatedButton**) which will take you to the registration page**
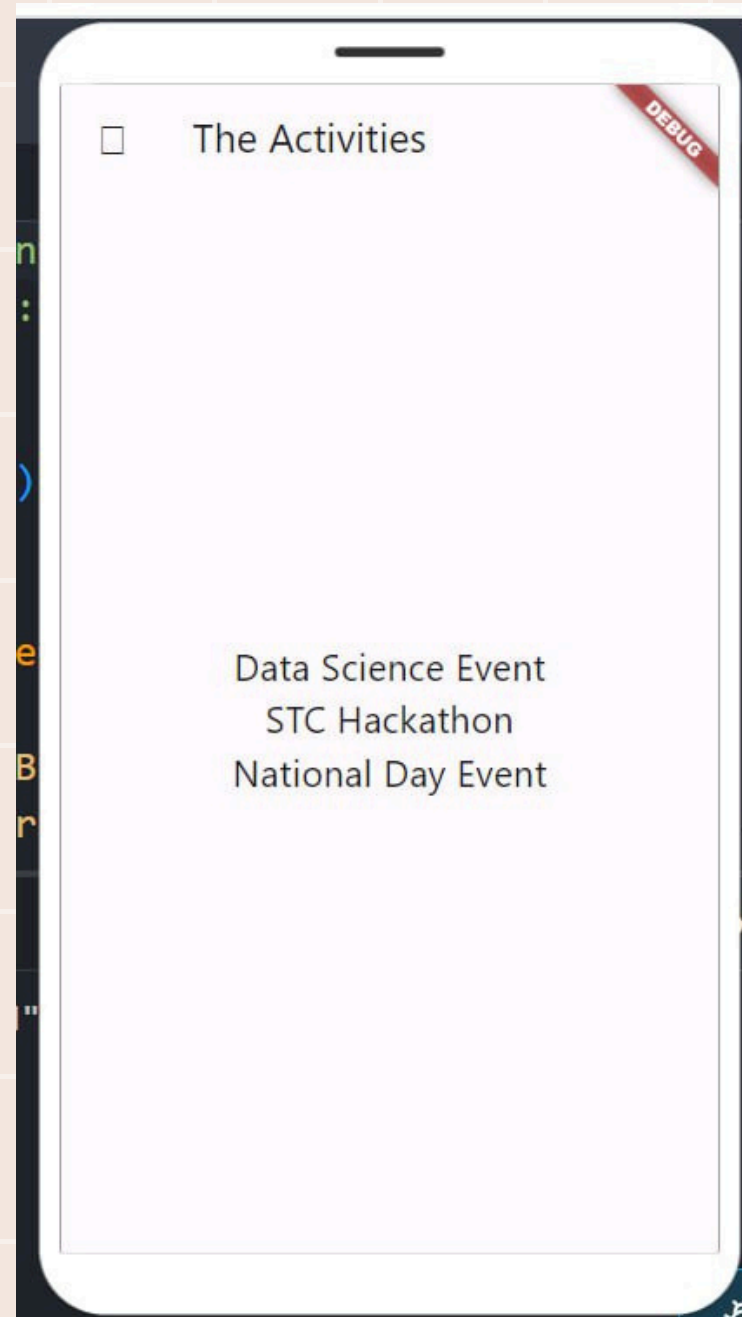

SCREEN 2:

Registration page: The user enters his name and password. If the entry is correct, it moves to welcome interface page. If it's not, it invalid !
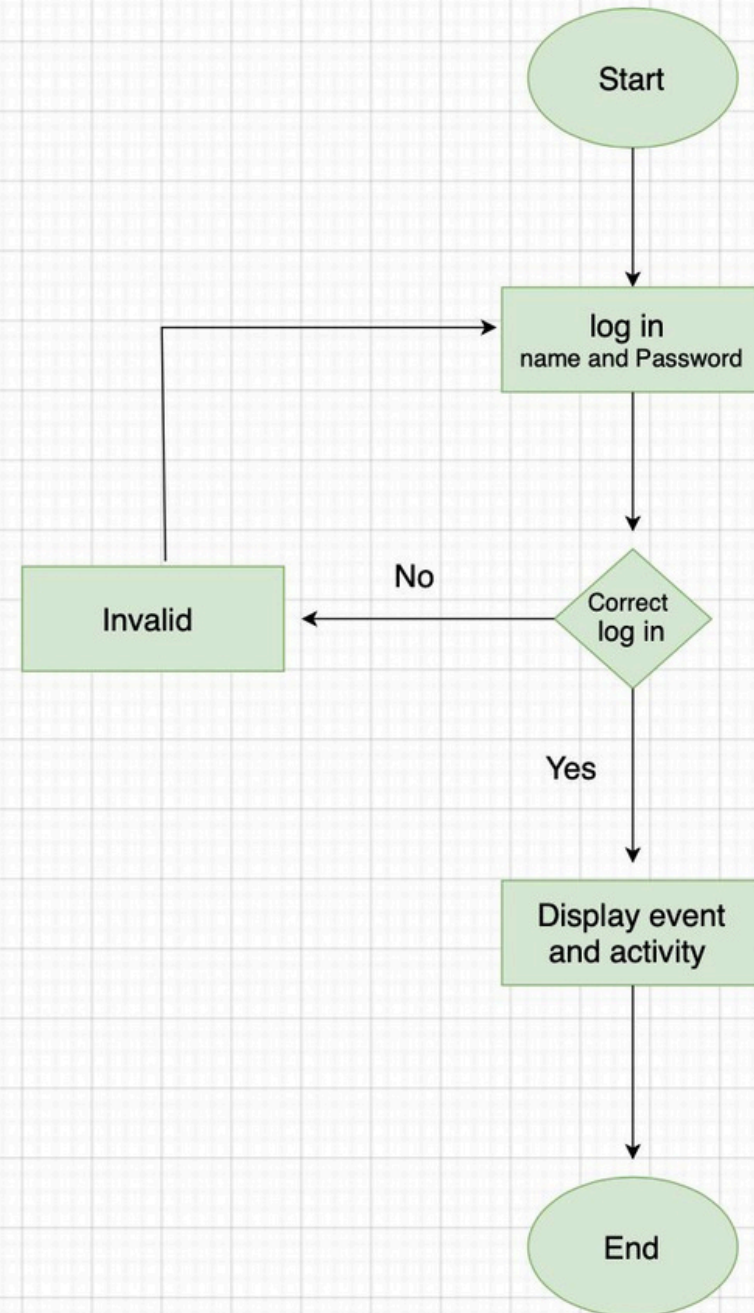

SCREEN 3:

Its welcome interface that leads you to the Activities and Events page

SCREEN 4:

Now you can view all the events and activities currently taking place at the university!

FLOW CHART

Start

log in
name and Password

No

Invalid

Correct
log in

Yes

Display event
and activity

End

CONCLUSIONS

In conclusion, we wrote code in Dart and Flutter to design the Sattam University application. This application helps the student communicate quickly and easily with all the events and activities related to the university. We seek to develop the application in the future and add new features!
